Is there a water slide? Yes No If yes, what type (straight or serpentine)?

What is the length?

Is it enclosed? Yes No

During swim lessons, are parents in attendance? Yes No

IMPORTANT NOTICE

Snyder Insurance Services, Inc. wants you to be aware of some important changes and assistance for keeping your clients safe. The topics covered on this notice are in reference to AED'S (Automatic External Defibrillators) and Concussion Awareness.

<u>Concussion Awareness</u> - As you know in the sports industry there are risks that your clients take when they participate in any sport. Unfortunately, there have been situations where concussions have occurred and not been recognized. This type of injury can lead to critical medical emergencies. Your business could be subject to a lawsuit that could be avoided: **As of September 1, 2013 it is now required to have a Concussion Awareness Program** as part of your training handbook along with communicating concussion signs to participants.

We suggest you learn more about promoting this safety program which will benefit you and your participants. There is a free online course offered by Centers for Disease Control and Prevention to assist you with proper education on how to handle concussion situations. You can access this course at:

http://www.cdc.gov/concussion/headsup/online training.html

<u>Automatic External Defibrillators</u> – In some states it is required by law to have an AED on premises if your business is related to the Health & Fitness Industry. So far, the states where these are required are: CA, NJ, MI, OR, RI, LA, NY, AR, IL and MA. (This is not an all inclusive list and more states are requiring this every year). You should check with your state and see if this is mandatory. Even if this is not required in your state these devices can save lives! We recommend that you have at least one of these devices on premises at all times and train
